Alpex Solar welcomes cricket legend Rahul Dravid as its first Brand Ambassador

The development is in line with Alpex Solar's vision to emerge as the 'Most Dependable' integrated player in the global solar energy landscape

Delhi, January 2, 2025: Alpex Solar Ltd (ALPEXSOLAR), a leading provider of high-precision solar PV modules and solar systems, today announced the onboarding of Indian cricketing legend Rahul Dravid as its first brand ambassador.

Rahul Sharad Dravid is a former captain and former Head coach of the Indian national cricket team. He is known for his adaptability and resilience across all cricketing formats. During his

career, which spanned over two decades, Rahul played 164 Test matches, 344 One-Day Internationals (ODIs), and 1 T20 for the country. He scored 24,177 runs in international cricket and, as the head coach, helped the Indian team win the 2024 ICC Men's T20 World Cup.

Speaking on the association, **Rahul Dravid, an Indian cricketing legend**, said “I am happy to be a part of Alpex Solar's journey. What connects us is the company's strong vision for a sustainable future and its commitment to excellence over the past two decades. I look forward to this partnership and contributing to its vision”.

Alpex Solar is pursuing an ambitious expansion program, which includes expanding the capacity of PV solar modules to 2.4 GW and aluminium frames to 12000 tonnes. The company is also venturing into solar cell manufacturing, with a target of 1.6 GW capacity by September 2026. Alpex has also accelerated its market expansion plans by eyeing global EPC and green hydrogen opportunities.

Commenting on the appointment, **Ashwani Sehgal, Managing Director, Alpex Solar Limited**, said “It is truly an honour to onboard Rahul Dravid as Alpex Solar's first brand ambassador. His contribution to the cricketing world has been etched in gold. Still, more importantly, the humility, perseverance, and quality that he has displayed on and off the field serve as an example to generations and put him into a rare club of global sports legends. We are ecstatic to associate with him in our pursuit of emerging as the most dependable, well-rounded player in the rapidly evolving global solar landscape in the future”.

Mr. Dravid's role as brand ambassador will involve endorsing Alpex Solar's initiatives to promote awareness about renewable energy and encourage the shift to solar power. His presence is expected to enhance the company's outreach, helping Alpex Solar connect with a broader audience, from environmentally conscious homeowners to large enterprises seeking to reduce their carbon footprint.

ABOUT ALPEX SOLAR LIMITED (INE0R4701017)

Alpex Solar was incorporated in 1993 by first-generation entrepreneurs Ashwani Sehgal, Monica Sehgal, and Vipin Sehgal and manufactures PV modules using monocrystalline and polycrystalline cell technologies. Its product portfolio comprises bifacial, mono-perc, and Halfcut solar PV modules. It also offers comprehensive solar energy solutions, including engineering, procurement, and construction (EPC) of AC/DC Solar Pumps in both Surface and Submersible categories. The Greater Noida-based company also serves as a contract manufacturer for several large companies, such as Jakson and Tata Power. Its solar panels are delivered with a specific focus on EPC companies such as Solarworld Energy Solutions Pvt Ltd, BVG India Limited, Tata Power, HAREDA, PEDDA and many more.

The Company forayed into Solar panel manufacturing in 2007 and built a state-of-the-art facility spread over 150,000 sq. ft. in Greater Noida. Alpex has an 848 MW capacity (as per MNRE notification on 22 March 2024), which can be further expanded to 2.4 GW. Owing to its R&D prowess, manufacturing excellence and a deep talent pool, the company has emerged among the preferred suppliers of PV panels. The company has 300+ employees – including celebrated professionals from within and beyond the solar sector experience. The company was listed on NSE Emerge in February 2024.
